CONSTRUCTION

## CONSTRUCTION & CONTRACTING

Experienced staffs, well equipped machines and commitment to provide top quality results determines our value in the market. Our competencies are our primary strength helping us to provide cutting edge solutions in building planning and construction around Qatar. We undertake contracting works ranging from villa, utility corridor, manhole, boundary wall, fence etc.

## CIVIL & STRUCTURAL MAINTENANCE SERVICES

Since the booming has begun, Qatar has been rapidly changing and adding more roads, highways and townships every day. We undertake outdoor civil & structural maintenance services mainly in two categories. We undertake road maintenance services starting from road paving, landscaping, obstruction clearance, patch works. We also undertake structural maintenance services like concrete & steel structure foundations, equipment foundations, support structures, tanks, pits, coatings etc.

## BUILDING MATERIALS TRADING & SUPPLY

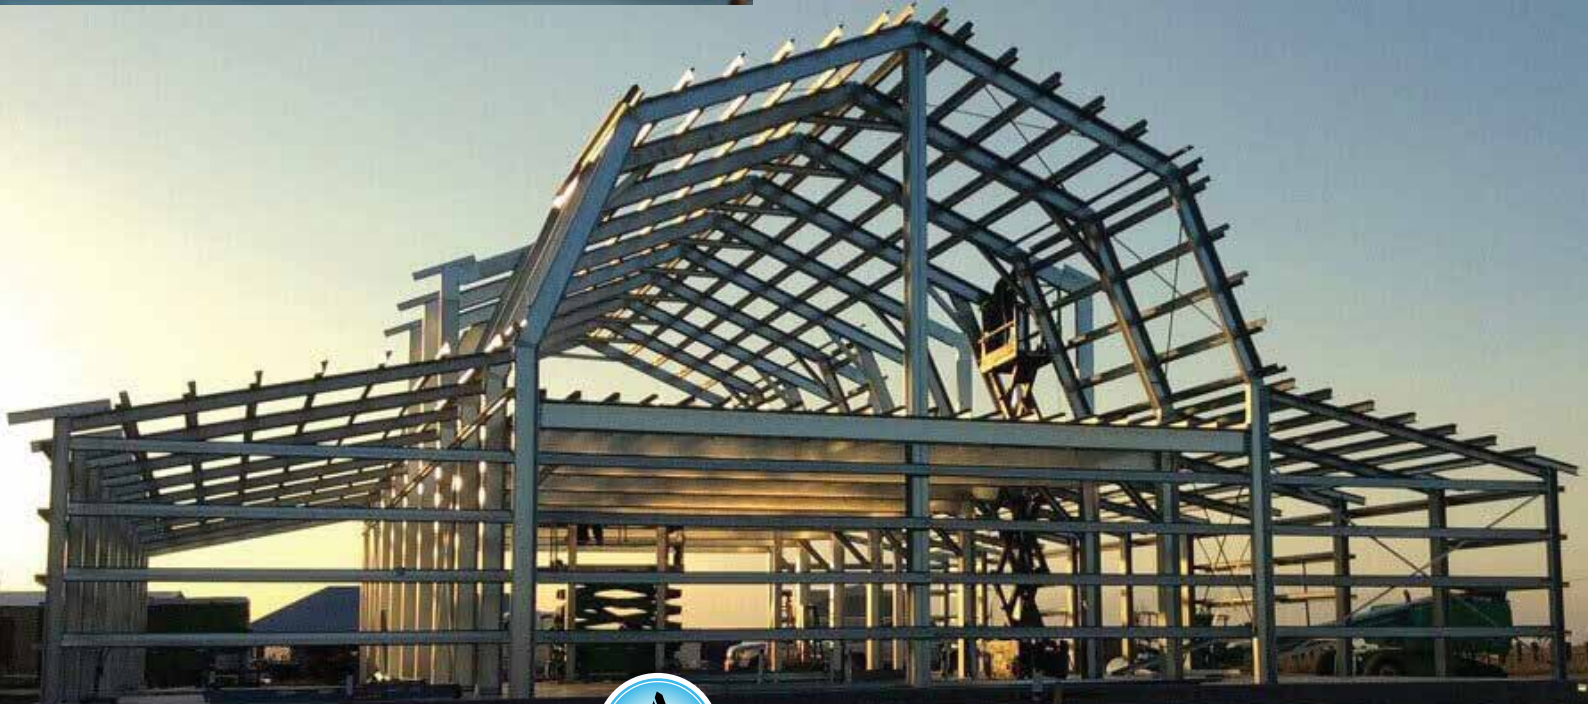

As we are closely associated with construction and maintenance industry, we are directly dealing with building materials also. We provide and distribute metal products such as galvanized iron sheets, scaffolding, steel bars; white wood, marine and commercial plywood, Joinery timber, fibre, insulation board and gypsum board and all other materials related to civil works, structural works & MEP works.

## STEEL STRUCTURE CONSTRUCTION

Steel structures turn into art by al aman group. steel building and structures. faster manufacturing & delivery. full control over quality.

multi storey light gauge steel buildings. solution service oriented. provides favorable price. high production capacity maximum customer satisfaction.
